Some Unexpected Personal News

The adjacent notice published in the *NZ Herald* on Tuesday 16th February contains news which was not expected. One outcome being this edition of *Sustainability Matters* is somewhat briefer than usual as my time and attention has been focussed on my wife and family as well as preparations for the celebration of her life.

There is of course more to the situation than conveyed in the notice, however that will suffice.

For those who may wish to watch the livestream of the celebration the reference is;

<https://youtu.be/WwW-0HbL4ok>

The link will become active as soon as the service starts at 11:00am. I'm not 100% certain – too many balls in the air – but I'm reasonably certain the livestream will be recorded.

As they say in the broadcast industry "normal service will be resumed as soon as possible."
